DESCRIPTION

Back By Popular Demand! This comprehensive, informative course, designed for the occupational health professional new to the field. Course content is practical and up-to-date, presented by a team of experienced experts. All participants will also receive the 2006 edition of "Getting Started" resource manual in CD format.

COURSE OBJECTIVES

1. Describe how the occupational health professional interacts in the health care facility's organizational structure.
2. Discuss areas of medical-legal confidentiality in occupational health.
3. Identify the federal, state, and local regulatory requirements as related to job placement, physical hazards, and biological and chemical exposures.
4. State current infection control practices related to infectious disease.
5. Identify strategies to utilize health teaching in infection control and safety.
6. Describe the effectiveness of case management in loss control.
7. Explain how to communicate the value of an occupational health professional service and continuous quality improvement.
