### **Coming Soon from NIOSH**

#### **On-line Course - Workplace Violence Prevention for Healthcare Workers**

This project involved experts from academia, government, and nursing associations. The main objective was to develop a free workplace violence prevention on-line course that healthcare workers could take at their convenience while earning continuing education credits. The course curriculum, which includes text, case study videos, and personal interview videos, is almost finalized. The course will likely be released to the public in fall/winter 2012. Please check the NIOSH Occupational Violence Prevention Topic Page at <http://www.cdc.gov/niosh/topics/violence/> frequently for an announcement and link that will be posted when the course is released.

***Note:** Through the OSHA and AOHP Alliance, AOHP developed this guide for informational purposes only. It does not necessarily reflect the official views of OSHA or the U.S. Department of Labor, September, 2012.*
